6. The Elements of Awareness

"Childhood should be carefree, playing in the sun; not living a nightmare in the darkness of the soul."

Awareness on "STOP CHILD ABUSE"

By NSS PO : 23rd April'

Child abuse or child maltreatment

Child abuse may include any act or failure to act by a parent or other caregiver that results in actual or potential harm to a child, and can occur in a child's home, or in the organizations, schools or communities the child interacts with.

Around 12 Vardhaman volunteers are participated in awareness rally conducted by other NGO's like Mulam, CSR foundation etc.. to create awareness on stop child abuse.

Ways to Help Prevent Child Abuse

Be a nurturing parent.

Children need to know that they are special, loved and capable of following their dreams.

Help a friend, neighbor or relative.

Being a parent isn't easy. Offer a helping hand take care of the children, so the parent(s) can rest or spend time together.

Help yourself.

When the big and little problems of your everyday life pile up to the point you feel overwhelmed and out of control – take time out. Don't take it out on your kid.

If your baby cries...

It can be frustrating to hear your baby cry. Learn what to do if your baby won't stop crying. Never shake a baby – shaking a child may result in severe injury or death.

Each person has the ability to reduce the amount of pollution that humans create. There is no debate that most of the pollution in the Great Lakes, and around the world for that matter, is the result of human activity. There is also no debate that pollution has caused drastic changes to the environment and it continues to harm our water. Some pollution can be traced to a specific location, but some of it is called nonpoint source pollution and this type of pollution is where you, as an individual, can make an immediate difference.

Around 22 Vardhaman volunteers are participated in Cleaning the Lakes after Ganesh Immersion and Bathukamma Festival.

“Earth provides enough to satisfy every one's needs, but not every one's greed.”

Kerala Support: (25th August 2018) Beginning on 15 August 2018, severe floods affected the south Indian state of Kerala, due to unusually high rainfall during the monsoon season. It was the worst flood in Kerala in nearly a century. Over 483 people died, and 15 are missing. To survive the lives **42 vardhaman volunteers** participated in grocery packing along with Druvansh Organization which is working for saving lakes, as well as general issues.

FREE EYE CHECKUP

By NSS PO: 29th October

The Telangana government is all set to launch a massive eye-screening programme, Kanti Velugu in 12,751 villages on Wednesday, coinciding with the Independence Day.

Around 3.70 crore people in Telangana will be screened for ocular problems covering refraction errors, cataract, Vitamin A deficiency, eye infections, glaucoma, corneal disorders and diabetic retinopathy starting from August 15 with over 800 teams conducting eye camps across the state.

As a part of this program our college conducted the program in the campus for the benefit of faculty and students. Around 150 plus faculty screened and issued spectacle at the venue with normal eyesight, where as others with special cataracts needed issued later. Around 500 plus students registered and gone through screening and issue the same.

Around 162 Volunteers are involved in the program campaign. In motivating their class students and other non teaching staff employees and bus drivers especially for screening.

CPR TRAINING for Volunteers

By NSS PO: 14th September

Cardiopulmonary resuscitation (CPR)

It is an emergency procedure that combines chest compressions often with artificial ventilation in an effort to manually preserve intact brain function until further measures are taken to restore spontaneous blood circulation and breathing in a person who is in cardiac arrest. It is recommended in those who are unresponsive with no breathing or abnormal breathing, for example, agonal respirations.

CPR involves chest compressions for adults between 5 cm (2.0 in) and 6 cm (2.4 in) deep and at a rate of at least 100 to 120 per minute. The rescuer may also provide artificial ventilation by either exhaling air into the subject's mouth or nose (mouth-to-mouth resuscitation) or using a device that pushes air into the subject's lungs (mechanical ventilation).

Around 10 Members got trained to help the society in rescue time by Gandhi Medical College by experts.

CPR TRAINING

**"Wear safety glasses,
foresight is better than
no sight"**

In May 1969, a conf student representatives (of universities and institutions of higher education) convened by the Ministry of Education and the University Grants Commission also unanimously agreed that a national-service scheme could be an instrument for national integration. 24 September 1969, the then Union Education Minister V.K.R.V. Rao launched the NSS at 37 universities in all states.
